

This volume highlights our Islamic Think Tank, dedicated to civilisational renewal in the Muslim world. IAIS provides sound policy research for Muslim societies & governments on critical issues of modernity. The First Year and The Road Ahead describes numerous public lectures, seminars, round-table forums and special events convened over our first year of existence.

In order to have real and continuing impact, our civilisation-enhancing work requires higher levels of material and moral support over an extended time. IAIS humbly asks its friends to assist by purchasing copies of this beautiful volume and sharing them with colleagues & family.
